Remote

Open to full-time, part-time and contract work

PROFESSIONAL SUMMARY

Frontend developer with commercial experience in React, TypeScript, Next.js and Vue. Built real-time chess platform interfaces, an online storefront and CMS applications. Work spans application state, API integration, SSR and a backend-for-frontend layer. Additional Unity/C# and VR experience supports interactive and networked product development.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, React, Next.js, Vue, HTML, CSS, responsive design; Mantine, Ant Design.

Data and forms: Redux Toolkit, TanStack Query / React Query, REST API, Socket.IO, WebSocket, GraphQL, Apollo, React Hook Form, Zod.

Tools: Vite, Git, i18next, Docker, CI/CD; Next.js Route Handlers, SSR, iron-session. Additional: C#, Unity, Flutter/Dart.

WORK EXPERIENCE

ME GROUP

Middle VR Developer

Mar 2026 - Present

Industrial VR training simulators | Unity, C#

- Develop interactive training and assessment scenarios, action validation and feedback; extend existing mechanics for Meta Quest.

Yellow Element

Middle Unity Developer

Sep 2025 - Mar 2026

Mobile RTS | Unity, C#, Firebase, PlayFab, Azure Functions

- Implemented server-side notifications, game events and tournament rewards; worked on PvP interactions, replays and tournament interfaces.

CUP LLC

Frontend Developer / VR Developer

Sep 2023 - Jul 2025

Frontend until Oct 2024 and from Feb 2025; Unity VR Oct 2024 - Feb 2025

- Developed MyChess desktop/mobile UI with React/TypeScript: real-time games, matchmaking, tournaments, communities, chats and notifications.
- Integrated three Stockfish analysis tiers: cached, cloud and local WebAssembly; implemented simultaneous-play and chessboxing interfaces.
- Worked on Redux Toolkit and React Query state/data layers, Socket.IO and MediaSoup/WebRTC streaming. Product scale: 121,577 registrations, 665,880 games and 50+ tournaments; the largest hosted 2,000+ participants.

Dmitry Fursov | Frontend Developer

WORK EXPERIENCE - CONTINUED

CUP LLC - continued

Frontend Developer | Cat-citten and CMS

Feb 2025 - Jul 2025

Next.js, TypeScript, React Hook Form, Zod, Mantine

- Built the Cat-citten server-rendered catalog, filtering, product pages, cart, B2B/B2C accounts and checkout forms.
- Implemented a Next.js BFF with Route Handlers, cookie-based sessions and token refresh for external API integration; added dynamic SEO metadata and sitemaps.
- Prepared Docker and CI/CD configuration. Developed fuel supplier CMS interfaces for deliveries, refuelling and price calculations with React, Mantine and React Query.
- Other assignments included the MyChess Flutter client; during the VR phase, independently built MyChessVR and a drilling simulator demo.

IT Tab

Frontend Developer / VR Developer

Jan 2023 - Sep 2023

Frontend Jan 2023 - Apr 2023; then Unigine VR

- Developed a transport company website with React/Ant Design and a door catalog and order-management CMS using TypeScript, Redux and React Query.
- Then implemented SARiDU VR simulator functionality in Unigine, including cooperative scenarios, instructor mode, UDP networking and VOIP.

Yellow Element

Junior Frontend Developer; previously Intern / Junior Unity Developer

Oct 2019 - Feb 2022

Frontend Feb 2021 - Feb 2022; previously Unity / AR

- Built React interfaces for Unreal Pixel Streaming and educational portals with Vue/Apollo/GraphQL: authentication, token refresh, forms, pagination and charts.

ADDITIONAL PROJECT

University project: a publication planning system built with PHP/Laravel. Implemented CRUD, authentication and access roles, SQL queries, relational database migrations and reports.

EDUCATION AND LANGUAGES

Donetsk National University | Computer Science and Engineering. Bachelor's degree, 2020; Master's degree, 2023.

Russian - native; English - B1; Ukrainian - B2.
