Remote

Open to full-time, part-time and contract work

PROFESSIONAL SUMMARY

Frontend developer with commercial experience in React, TypeScript, Next.js and Vue. Built real-time chess platform interfaces, an online storefront and CMS applications. Work spans application state, API integration, SSR and a backend-for-frontend layer. Additional Unity/C# and VR experience supports interactive and networked product development.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, React, Next.js, Vue, HTML, CSS, responsive design; Mantine, Ant Design.

Data and forms: Redux Toolkit, TanStack Query / React Query, REST API, Socket.IO, WebSocket, GraphQL, Apollo, React Hook Form, Zod.

Tools: Vite, Git, i18next, Docker, CI/CD; Next.js Route Handlers, SSR, iron-session. Additional: C#, Unity, Flutter/Dart.

WORK EXPERIENCE

TOO ME GROUP

Middle VR Developer

03.2026 - present

Industrial VR training simulations | Unity, C#

- Develop interactive training and examination scenarios, action validation and feedback for Meta Quest while extending existing production mechanics.

Yellow Element

Middle Unity Developer

09.2025 - 03.2026

Mobile RTS | Unity, C#, Firebase, PlayFab, Azure Functions

- Worked on server-side notifications, game events and tournament rewards, as well as PvP interaction, battle replays and tournament interfaces.

CUP LLC

Frontend Developer / VR Developer

09.2023 - 07.2025

MyChess web/mobile | React, TypeScript, Flutter, Socket.IO

- Developed desktop and mobile MyChess interfaces with React/TypeScript: realtime games, matchmaking, tournaments, communities, chats and notifications.
- Implemented three Stockfish analysis modes: local, server-side and browser-based; the combined approach reduced repeated server calculations by approximately 50-60% and made analysis available 2-3x faster.
- Built tournament interfaces for round-robin, Swiss and Olympic systems, plus simultaneous play across more than 10 boards through Socket.IO with latency below 200 ms.

Dmitry Fursov | Frontend Developer

WORK EXPERIENCE - CONTINUED

CUP LLC - continued

Frontend Developer | Cat-citten and CMS

02.2025 - 07.2025

Next.js, TypeScript, React Hook Form, Zod, Mantine

- Developed the Cat-citten SSR catalog with filtering, product cards, cart, B2B/B2C accounts and checkout forms.
- Built a Next.js BFF with Route Handlers, cookie sessions and token refresh for an external API, plus dynamic SEO metadata and sitemap generation.
- Created reusable UI components and forms with Mantine, React Hook Form and Zod; prepared Docker and CI/CD configuration.
- Developed a fuel supplier CMS with React, Mantine and React Query for supplies, refueling records and pricing across three key business areas.

IT Tab

Frontend Developer / VR Developer

01.2023 - 09.2023

Frontend 01.2023 - 04.2023; then Unigine VR

- Built a responsive transport company website with React, assembling the interface from 20+ reusable Ant Design components and reducing duplicated markup by approximately 30%.
- Created an administrative CMS with React/TypeScript, Redux and React Query; API data-flow improvements reduced repeated requests by 40-50% and made repeat section opens about 1.5x faster.

Yellow Element

Junior Frontend Developer; previously Intern / Junior Unity Developer

10.2019 - 02.2022

Frontend 02.2021 - 02.2022; previously Unity / AR

- Integrated Unreal Engine Pixel Streaming into a React application with approximately 200-300 ms response time; developed education portals with Vue.js, Apollo and GraphQL.
- Built authentication, token refresh, forms, pagination, workspaces and learning-progress visualization with Chart.js.

ADDITIONAL PROJECT

University project: a publication planning system built with PHP/Laravel. Implemented CRUD, authentication and access roles, SQL queries, relational database migrations and reports.

EDUCATION AND LANGUAGES

Donetsk National University | Computer Science and Engineering. Bachelor's degree, 2020; Master's degree, 2023.

Russian - native; English - B1; Ukrainian - B2.
